

# Welcome to MyNullsSQL: the application that helps you find and seek nulls and blanks in a mySQL database.

## To Start:

The screenshot shows a window titled 'MyNullsSQL' with a light gray background. It contains five input fields for database connection parameters: 'Server IP' (127.0.0.1), 'Database Name' (sakila), 'Port' (3306), 'Username' (root), and 'Password' (masked with asterisks). Below the fields are two buttons: 'Test' and 'Analyse'. A large black curly bracket on the right side of the window groups the five input fields together.

**Step 1:** Enter  
database connection  
parrameters

**Step 2:**  
Test the  
Connection

**Step 3:**  
Enter the  
application
